COMMENTS: Miles unverified. 12/17 JG - TT Jackie at yard-batteries have been replaced and power steering fluid cap installed; it was missing. Unit starts, runs and drives. Odometer photo is attached. There's also a copy in the client directory. Please update the CR. Please remove from Mechanical Status.

This unit looks ok. It shows some wear but no outwardly visible damage. It does not start. The key was turned. The gauges move but the odometer did not light up. The lights work. Nothing from the engine. The driver shaft has been disconnected. The guy from hodge trucking confirmed it would not start even though the place they got it from said it foes start and run.
